superstate

Health, simplified.

Founder deck · November 2026

Georgy Varghese, Founder

superstate

we make health simple in a world that makes it complicated.

A modern health & wellness brand built on quality, transparency and evidence,
starting with Sleep Well: coffee, but for sleep.

WHY SUPERSTATE

It started with my own health.

Weight, skin, recovery, performance. The more I read about nutrition and supplements, the more questions I had. Every product made a different promise, and separating useful evidence from marketing took a huge amount of time and effort.

> “If I found this confusing while actively researching it, how hard must it be for someone who simply wants to take better care of themselves?”

Georgy Varghese · Founder, SuperState

THE PROBLEM

People don't lack interest in their health. They lack a simple, reliable way to decide.

01

Awareness

People want to be healthier, but don’t know which nutritional needs matter to them, or where supplements fit in.

02

Trust

Big claims on the front, but no easy way to verify ingredient quality, dose, sourcing, or the evidence behind them.

03

Uncertainty

Benefits are gradual and vary from person to person, so people are left wondering whether it’s working at all.

Brands should take responsibility for making this easier, rather than expecting every customer to become a nutrition expert.

HOW THE CATEGORY WORKS TODAY

Big on the front. Pixie dust inside.

- **Pixie-dusted doses**
  A pinch of a hero ingredient, printed big on the pack.
- **Cheapest forms**
  The least expensive version, sold at a premium.
- **Hidden blends**
  Real amounts buried in a “proprietary blend”.
- **Fine print**
  A label nobody has time to actually read.

> “They’re not betting on you being foolish. They’re betting on you being tired.”

That’s the part that made us angry.

OUR APPROACH

We do the homework, so you don’t have to.

Transparent

Every dose on the label. Zero proprietary blends. Forms we can explain, in plain words.

Honest about evidence

Research on an ingredient isn’t proof for a finished formula. We say which is which, limitations included.

Enjoyable

Functional nutrition built into rituals people look forward to, not pills they forget to take.

OUR FIRST PRODUCT

Sleep Well.
Coffee, but for sleep.

A ready-to-mix dark chocolate drink for your evenings. Stir into hot water, sip it 30 minutes before bed, and let it become your wind-down cue.

- Real organic cacao base
- No melatonin, no hormones
- 7 ingredients, every dose listed
- 30 min before bed

Why sleep first? It underpins recovery, focus and well-being, yet a consistent night routine is hard to build.

WHAT'S INSIDE

The whole recipe. No secrets.

7 ingredients

0 proprietary blends

0 mg melatonin

	**Organic raw cacao**	The base. Real dark chocolate that makes bedtime a treat.	3,000 mg
	**Glycine**	An amino acid that helps your body ease into wind-down mode.	3,000 mg
	**Magnesium L-threonate**	The calm-mind magnesium.	2,000 mg
	**Magnesium bisglycinate**	The relaxed-body magnesium.	1,000 mg
	**Tart cherry extract**	A natural night-time partner for the rest of the mix.	500 mg
	**L-theanine**	Calm, not drowsy. Turns down the mental chatter.	200 mg
	**Apigenin**	The chamomile compound that cues it's time to switch off.	50 mg

Per sachet, as listed on superstate.in. Food product; not intended to diagnose, treat, cure or prevent any disease.

THE RITUAL

Not another pill to remember. A ritual to look forward to.

9:30 pm — **Rip it.**
Tear open one sachet. That's one serving.

9:31 pm — **Stir it.**
Into hot water, or milk if you like it creamier.

9:35 pm — **Sip it slow.**
Lights low, phone face-down.

10:00 pm — **Lights out.**
Same time tomorrow?

OUR DIFFERENTIATION

Transparency beyond the label.

Transparency isn't a marketing message. It's how we build products, and how we build our relationship with customers.

What's in it	Every ingredient and every dose on the pack. No proprietary blends.	Live
Why it's there	A plain-language "job" for every ingredient, with where it comes from.	Live
How it's verified	Quality-testing information, including batch-specific reports where appropriate.	Building
What the evidence says	A clear line between ingredient research and evidence for our finished formula, limitations included.	Roadmap

MEASURING OUTCOMES

Better questions than “did you like it?”

For Sleep Well, we can look at

- Sleep diaries
- Structured customer feedback
- Data from sleep-tracking devices

Honest caveat: these signals alone can’t prove a supplement caused an improvement. We keep customer observations separate from scientifically established results, and build stronger evidence on finished products where it’s practical and justified.

BUSINESS MODEL

Direct to consumer, priced as a daily habit.

Pack of 5

₹299

₹239 at launch

≈ ₹48 / night

Pack of 15

₹900

₹720 at launch

≈ ₹48 / night

best value

Pack of 30

₹1,500

₹1,200 at launch

≈ ₹40 / night + gift

How we sell

Own D2C store
UPI & cards via Razorpay

Free shipping
across India

Creator-led growth
creator codes: 30% off + gift

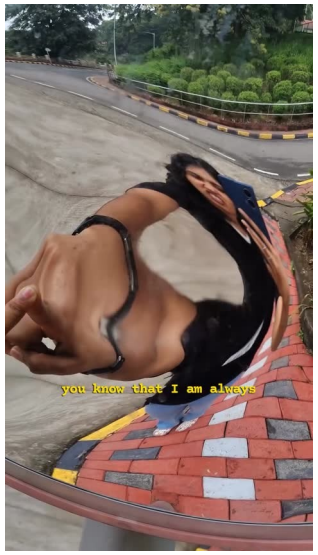

Real-human support
on WhatsApp and email

MRP inclusive of taxes. Launch pricing = 20% off for everyone (code FIRSTNIGHT20). Source: superstate.in.

EARLY TRACTION

Batch 01 sold out. Batch 02 is shipping.

Customers cleared our first batch faster than we planned. We took notes, made it better, and restocked.

Hridya

Abhimanyu

Shreya

Shanavas

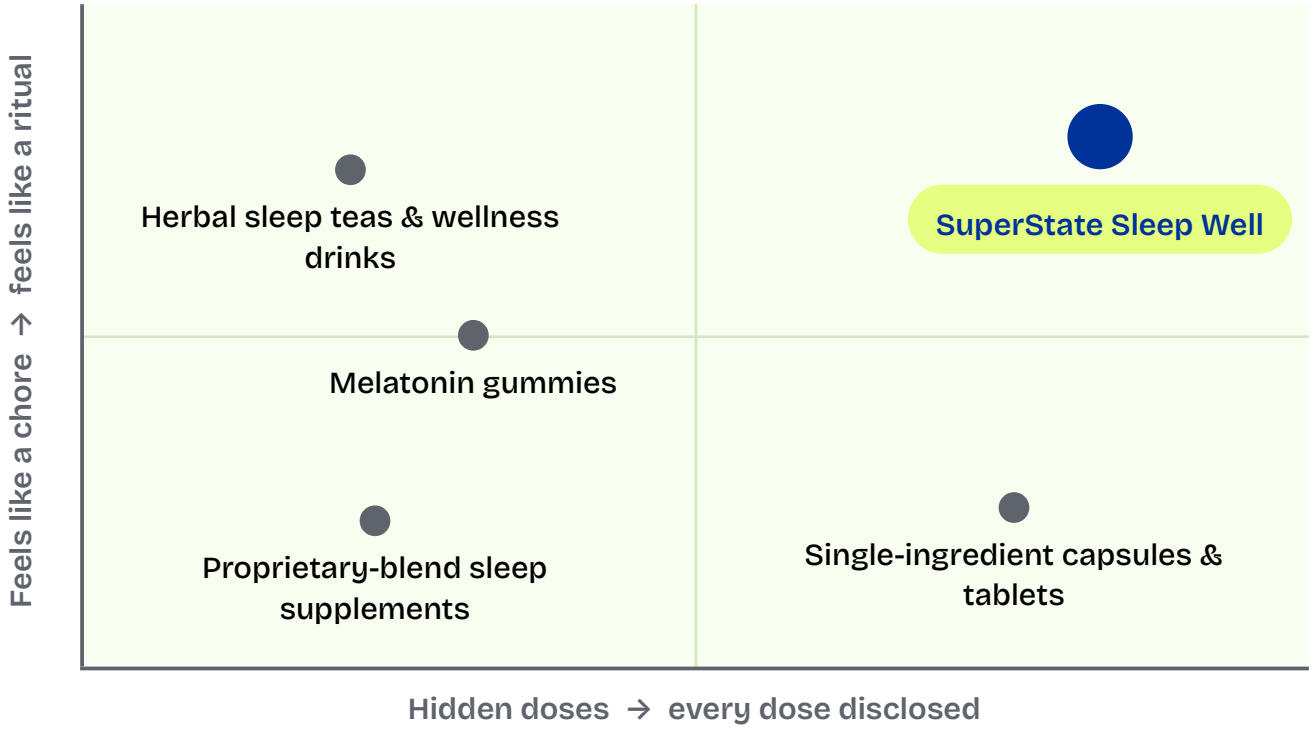

Creators we sent Sleep Well to, reviewing it in their own words.

WHERE WE PLAY

Fully transparent and genuinely enjoyable.

Our edge

Full disclosure

Every dose on the label, no melatonin, forms we can explain.

A ritual format

A warm dark chocolate drink people look forward to, which drives a daily habit.

Built to be questioned

“Don’t trust us blindly.” We invite customers to scrutinise our label and doses.

Illustrative positioning of product categories, not of specific brands.

THE LONG-TERM VISION

Sleep Well is just the beginning.

Every product, same principles: quality, transparency, evidence and a better experience.

NOW

Sleep Well

Prove the ritual and the transparency model.

NEXT

Evidence & verification

Batch reports and finished-formula testing, shared honestly.

THEN

More everyday needs

New products for everyday health, same principles.

LONG TERM

The health brand people trust

Health made simpler, more transparent, more enjoyable.

“I want us to build a brand that doesn’t just sell products, but helps people feel more confident about the choices they make for their health.”
