Health, simplified.

A founder story · Georgy Varghese

OUR MISSION

We make health simple in a world that makes it complicated.

WHERE IT STARTED

I wanted to get healthier. I ended up with more questions than answers.

Georgy Varghese, Founder

People don’t lack interest in their health.

They lack a simple, reliable way to decide.

01

Awareness.

"Which needs actually matter to me?"

02

Trust.

"Can I believe this label?"

03

Uncertainty.

"Is it even working?"

Big on the front. Pixie dust inside.

Tiny doses · cheapest forms · hidden blends · fine print

We do the homework, so you don't have to.

- Every dose on the label
- Honest about evidence
- Built to be enjoyed
